

## The What, Why and How of Instructional Technique 2ND EDITION

Following the success of the first edition of my book 'The What, Why and How of Instructional Technique for Driving Instructors', I have been working hard over the last few months to produce an extended 2nd edition. My main motivation was in response to requests and suggestions from readers about additional material and information you would like to see included. My thanks to all of you who contacted me.

The first edition was well received and to date over 500 copies have been sold both through our website and on sites such as amazon:

### Motor Schools Association Book Review

"Well laid out with good scenarios and easy to understand basic diagrams.

The book has a good key finding system with plenty of easy to use and practical question and answer ideas that would assist any ADI."

**"The title says it all: The What, Why & how."**

### adiNEWS Book review

"The author and editor have considerable experience in training PDI's and this is most apparent in the way in which the book is constructed. There is excellent use of symbols and 'stand out' boxes which makes the book simple to follow and easy to read. On the technical side the book is very accurate."

**"I think we have a real winner – 8 out of 10!"**

As well as all the original material, the 2nd edition includes detailed and comprehensive briefings designed to be used as a single source reference including:

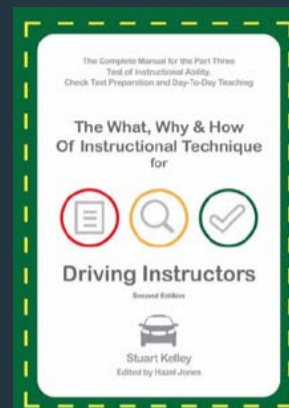

**Roundabouts, Uphill and Downhill Starting, Practical Hazard Perception Training All six Pass Plus Modules.**

**The Tips and Techniques** section gives some useful advice to help cure basic pupil problems such as clutch control, steering and braking etc.

**New Developments** is an easy to understand guide to all the main projects that the DSA are currently working on including CPD.

**The GDE Matrix** is explained & **An Introduction to Coaching** gives some practical examples of how to use these techniques using a pass plus module.

The **Useful Phrases** section at Appendix 2 has been greatly extended following a competition run in the MSA Newslink magazine.

**Only £27.00**  
+ £2.00 p&p
